## SKILLS

HTML5   CSS3	MySQL	Redux	Object Oriented	Agile
JavaScript	SQL	Git	Programming	Wireframes
Node.js	NoSQL   MongoDB	Version Control	Back-end frameworks	Responsive
React.js	GraphQL	RESTful APIs	Unit Testing   Jest	Design
Front end frameworks	Express	MVC Frameworks	JSON   JWT	Figma

---

## EXPERIENCE

### Full Stack Developer | *Solo Traveler*

[GitHub](#) | [Website](#)

- Effectively managed and optimized GraphQL database, ensuring smooth data retrieval and manipulation to enhance overall system performance.
- Implemented user authentication systems with JSON Web Tokens (JWT) ensuring secure access control, safeguarding sensitive user data, and enhancing overall application security.
- Collaborated with a cross-functional team using Agile methodologies, facilitating efficient communication, prioritizing tasks, and delivering high-quality results within strict timelines.

### Front End Developer | *Colletta Restaurant*

[GitHub](#) | [Website](#)

- Produced a dynamic, responsive, and user-friendly restaurant website with intuitive navigation, visually appealing design, and seamless reservation booking to enhance the overall dining experience.
- Debugged code by efficiently identifying and resolving complex issues resulting in improved website functionality and appearance.
- Utilized React to streamline the development processes, enhance code reusability, and deliver interactive interfaces, resulting in improved development efficiency.

### Front End Developer | *VMJS Photography*

[GitHub](#) | [Website](#)

- Designed and built a portrait photography website using Figma, CSS, JavaScript, and React, showcasing a visually stunning portfolio, user-friendly interface, and convenient booking system to attract and engage potential clients.
- Collaborated closely with stakeholders, engaging in requirements gathering, conducting regular progress updates, and incorporating valuable feedback to deliver solutions that aligned with stakeholder expectations and maximized project success.

---

## WORK EXPERIENCE

### Professor

*Austin Community College*

June 2022 - Current

- Evaluate and execute improvements to the user's digital experience enhancing the seamless transfer of information and resulting in increased ease of use and user-product interaction.
- Implement a variety of research-backed strategies to align products with clients' goals resulting in more effective and engaging designs.
- Leverage data-driven insights to increase productivity and quality resulting in advancing the clients' goals by 200% between deadlines.

---
